Maximiliano Vallejo

Full Stack Developer

jmaximilianovallejo@gmail.com linkedin.com/in/maximiliano-vallejo github.com/MaximilianoVallejo1991 Tucumán, Argentina

ABOUT ME

I didn't arrive at software through a traditional path. For over 10 years I worked alongside my father in a metalworking shop, manufacturing and repairing machinery, while studying the core curriculum of an Engineering degree. Integrating automation with Ladder diagrams and PLCs in the shop led me into the world of 3D printing with my venture Emme 3D, and from there into web development: Argentina Programa, a QA Testing course, and self-directed study. Today I build complete full-stack applications with React, Node.js, Express, and PostgreSQL, using AI strategically (spec-driven development, model evaluation, context optimization).

SKILLS

Frontend	React · TypeScript · JavaScript · Tailwind CSS · HTML / CSS
Backend & DB	Node.js · Express · PostgreSQL · MySQL · Prisma ORM · REST APIs · JWT · Git / GitHub
Tools	Docker · Figma · Vercel · Render · Supabase · Vite · Postman

FEATURED PROJECTS

Stock Control Live Repo

React · Node.js · Express · PostgreSQL · Prisma · JWT

Full inventory management and point-of-sale (POS) system with a dynamic discount engine, real-time stock control, sales tracking, current accounts, and advanced statistical reports.

ElianApp Live Repo

React 19 · Express 5 · Prisma 7 · PostgreSQL · JWT

Shared expense tracking app: each person reports their own items, the system validates and balances. Supports equal, percentage, and exact splitting per participant.

My Portfolio Live Repo

React · TypeScript · Vite · Tailwind CSS

Personal portfolio site with a project gallery, a career timeline, and a certifications gallery powered by Cloudinary.

EXPERIENCE

Present — **Self-Taught Full Stack Developer**
Personal projects
- Build complete full-stack applications with React, Node.js, Express, and PostgreSQL.
- Use AI strategically: spec-driven development, model evaluation, context optimization.

2022 — Present — **IT Support & Information Security**
Poder Judicial de Tucumán (Tucumán Judiciary)
- First formal job in tech, in the Systems (IT) office.
- Continuing to grow professionally in the role, focused on IT Support and Information Security.

2019 — 2022 — **Emme 3D**
Own 3D-printing venture
- Scaled up to 10 printers running simultaneously.

2015 — 2022 — **Sales, Rental & Logistics Coordinator**
Ladrillos Macizos Concepción — Self-employed
- Sold machines and bricks manufactured in-house at the workshop.
- Managed sales, rentals, and on-site delivery logistics.

2008 — 2019 — **Metalworking Shop**
Machinery manufacturing and repair
- Over 10 years manufacturing and repairing machinery.
- Automation with Ladder diagrams and PLCs.

EDUCATION

QA Testing
— 300 hours, certified by UTN Facultad Regional Tucumán — 2021–2022

AI-Assisted Development
— Introductory course on AI-assisted software development — 2026

Argentina Programa
— #SéProgramar, my formal entry into coding — 2021

Platzi
— Software Architecture Fundamentals · React.js · Backend with Node.js: REST API with Express.js · JavaScript Fundamentals, and other courses

Prior Technical Degrees
— Construction Technician · MMO (Maestro Mayor de Obras / Master Builder) · Electronics and Home-Appliance Repair Technician

LANGUAGES

Native Spanish · English B1 · *Open to junior or trainee opportunities*
